I believe, we have been referred to you by Arturo Chavez for assistance in securing the renewal of the BLQ-Pico Business Improvement District, a project that benefits CD1, the City, local business, and the community. We are under a very tight time limit from the City Clerk's Office to secure needed Petition support for BID renewal. We talked on the telephone recently but have experienced difficulty in re-connecting so I'm sending this email.

Can you refer us to the Business Manager for the Laborer's Union Local 300 and provide a telephone or email contact for him? The Council Member's support of BID Renewal with the Union was very important 3 years ago when we originally formed the BID with the Councilman's support.

Similarly, we need to contact the property owner / developer for the shopping center located at Pico & Alvarado. Your office must have had recent contacts in the center's entitlement process

Debby, thank you so much for your support as we go through this difficult process. If you want to talk, I'm at 818-515-2159.
